DATA & ASSUMPTIONS

SECTION 1 APARTMENTS

APARTMENTS: Target Demographics

The Amenity Suites brand is designed to attract the largest demographic among renters. Our choice of unit sizes, floorplans, and characteristics are based on renter demographic research. Below is information that defines the Amenity Suites target demographic. Amenity Suites takes a data driven approach to design, development, and operations, so we use data to guide and justify all of our decisions.

Demographic - Age

According to a report by the Joint Center for Housing Studies at Harvard University, "Rentership rates decrease with age as housing needs change, with the steepest declines among the younger age groups." The study found that renter demographics have the following age characteristics:

- Among householders under age 25, approximately 85% are renters;
- Among householders between 25 and 34, approximately 61% are renters;
- Among householders between 35 and 44, approximately 42% are renters; and
- "the huge millennial generation are moving through their 20s and 30s, the ages when renting is most common."

Target Age Demographic	18 - 34

Demographic - Occupancy

According to the same Harvard Study, renters are most likely to be single. The study found that renter demographics have the following occupancy characteristics:

- Two-thirds of renters are single persons, single-parent, and nonfamily households;
- A large share of all single-persons live in rental properties;
- 80 percent of married-couple households own their homes; and
- · Married couples clearly prefer to buy (instead of rent).

Target Occupancy Demographic Single

Target Demographic - Lifestyle

According to various sources, pet ownership is on the rise. That trend is especially true among Millennials, which are a key target demographic for Amenity Suites.

• According to Statista.com, Gen Z (age 18-26) and Millennials (age 26-41) represented the biggest share of pet owners in the United States.

APARTMENTS: Target Room Size & Layout

The following shows how we determined the size and dimensions of our apartments. Our units fit the needs of the largest apartment demographic: single individuals. Our unit sizes are based on long-term trends in decreasing unit sizes. The room dimensions in our units were designed to conform with typical consumer expectations of living areas.

OVERALL SIZE

According to CNBC, "While all types of floor plans are shrinking, new studio apartments are minimizing most at an average of just 514 square feet". Based on its research, RentCafe found that studios are now being built at around 500 square feet (SF), with 1-bedroom units averaging around 750 SF. Amenity Suites unites are a hybrid Studio / 1-Bedroom, and combining the average size of studios and 1-bedrooms results in an average of 625 SF.

BEDROOM

"An average bedroom has a bed, a wardrobe, a dressing table or a study desk, and two or a single bedside table... For a room to accommodate a whole wall wardrobe and a desk or a dressing table, a space that is 11 ft. 6 inches by 10 ft. 6 inches would be perfect."

WATER HEATER

"1-2 people need a 30-gallon water heater". We chose a 40-gallon water heater to insure that tenants have plenty of hot water. 40-gallon heaters also tend to be more readily available, with little difference in cost between 30 and 40-gallon water heaters.

plumbingsource.net/what-size-hot-water-heater-do-you-need

	Target	Actual
Water Heater Size	30 gal	40 gal

PTAC Unit

We use PTAC units instead of furnaces and condensers, because it eliminates the cost of ductwork and condenser lines. PTAC systems are also less expensive. We chose to put 2 PTAC units in every apartment for redundancy - a unit always has backup heating and air, even if one unit is being serviced. We also chose to oversize the units, so that there is plenty of heating and air available even during the hottest and coldest times of the year.

According to PTACinc.com, it is recommended to use a "5,000 BTU PTAC for a room between 100-150 square feet. For each 50 square foot increment, add 1,000 BTUs." Our units are approximately 650 SF, so that is a minimum requirement of 15,000 BTUs.

IN-UNIT WASHER & DRYER

According to a Business Journal article, renters are "demanding" in-unit washers and dryers, but that amenity "is the hardest to find". Of the relatively small number of apartment complexes that offer in-unit washer and dryers, a number of those complexes charge an additional rental fee for the machines. All Amenity Suites apartments come standard with an in-unit washer and dryer - there are no additional costs or fees for the tenant.

APARTMENTS: Target Apartment Rate

Amenity Suits is focused on minimizing project risk, by keeping upfront costs low to minimize long-term debt service. When calculating rent rates we look at both the average rents in a market and the comparable rent rates. The Average Market Rent gives us a very conservative (low end) estimate for our potential rent rates. The Comparable Rent Rates give us an estimate of the upper end of our potential rent range. The rates that we use in our initial calculations fall somewhere within that range.

APARTMENTS: Rent Rate Growth Analysis

The purpose of the following Rent Growth Rate analysis is to establish the rate at which rents typically change over time for markets similar to Wichita. The data below was taken from U.S. Census data for various types of multifamily housing. The data sets that were used represented nationwide rental rates (U.S.), and rates broken down by region of the country (i.e., NorthEast, MidWest, South, West). Given the variation in rent rate changes in different areas, the rate used was the combined average of the U.S. and the Midwest.

The data on the left-hand side is the source data from the Census Bureau. The data on the right-hand side is the annual change in rent rates that has been calculated based on the source data.Below the tables is the 20-Year Average Annual Rent Growth Rate:, which is the average of the U.S. rate and the MidW rate. This number (4%) is the rate that was used in the Financial Projections section to calculate the average annual increase in rent rates each year.

APARTMENTS: Occupancy Rate Analysis

The purpose of the following Comparable Vacancy Rates analysis is to establish an extimated occupancy rate for this project. The data below is from the U.S. Census data for various types of multifamily housing. The numbers in the table are in terms of vacancy rates, because that is how the Census reports the numbers. However, the averages are converted to occupancy rates, because that is the rate used in the financial projections.

Of the 9 Census areas that were compiled and reviewed, 3 were seen as being most similar / comparable to this project. Based on that data, the Present Average Annual Occupancy Rate of 93.99%, is the number that is used duiring the first year of operations (before being adjusted for lease up). The 20-Year Average Annual Occupancy Rate 91.36%, is the target occupancy used to calculate the estimated change in occupancy over the next 20 years.

SECTION 2 HOTEL ROOMS

HOTEL ROOMS: Target Hotel Rate

The hotel units at Amenity Suits provide apartment residents with a spare room for family and friends to rent when they visit town. We also have hotel units to increase property revenue. Hotel units are designed primarily as executive stay rentals that appeal to local companies needing a place for out-of-town customers and employees.

As a corporate housing product, the hotel units at Amenity Suites have a competitive advantage over other apartment or hotels that try to attract corporate clients. We offer lower rates, because our cost per unit to develop and manage is lower than comarable hotels. We also offer better corporate amenities.

In addition to a high quality and affordable hotel rooms, Amenity Suites offers corporate clients free access to the 24-hour fitness facility and free access to the 24-hour coworking space. The fitness facility is 4697.5 square feet, so it is much nicer than the small fitness rooms at hotels. The coworking facility is 5000 square feet, and it offers corporate customers a place to work and host meetings.

SECTION 3 AMENITIES

AMENITIES: Target Amenities

The Amenity Suites brand is designed to provide a living experience that fits the expectations and needs of our target demographic. Given our data driven approach to decision making, a lot of data was analyzed during the process of choosing the amenity mix for our apartments. Below is a sampling of the information that led to those choices.

Fitness Center

According to a survey by rentcafe.com, fitness amenities are important to renters. According to the study:

- 47% of respondents said they were interested in renting in a community with a gym or fitness center;
- for 28% of these renters, the lack of a gym is a real deal-breaker; and
- 90% of new apartment communities have fitness amenities.

Co-Working Center

According to Forbes magazine, "Millennials Are Flocking To Shared Office Spaces." According to the article:

- "One of the biggest drivers of (the co-working) trend is the emergence of millennials in the professional world":
- · co-working office spaces "thrive" with the millennial population; and
- · shared office spaces are quickly becoming the dominant choice in work.

Pet Care Center

According to research by Apartments.com, "Pet owners are having a big impact on the apartment rental market." According to the research:

- 68% of households have pets and 71% of those are dogs;
- 74% of renters looking for "pet friendly" apartments are looking for dog friendly; and
- a dog park and pet washing station are the most popular pet-friendly amenities.

Target Amenity Pet Center

AMENITIES: Fitness Center

The fitness center is designed to provide a competitive advantage over other apartments. Research shows that fitness amenities are popular, with 90% of new apartments including fitness amenity. To gain a competitive advantage, Amenity Suites will offer a full sized, state of the art, fitness center, which is designed to compete with the most popular national gym.

Amenity Suites is unique, because our amenities are offered separate from a tenant's base rent. That keeps rents low and allows tenants to only pay for the amenities that they use. In the case of the fitness center, we will also sell membership to the public, so the amenity becomes a profit center that increases revenue.

When making design, pricing, and membership decisions, we build the fitness center to compete with Anytime Fitness. "With more than 4,000 franchise locations on all seven continents – more than half outside the U.S. in more than 30 countries – Anytime Fitness is the #1 fitness franchise in the world."

AMENITIES: Coworking Center

The coworking center is designed to provide a competitive advantage over other apartments, by providing one of the amenities identified in our "target amenities" research. Research shows co-working spaces are thriving as young professionals look for more flexible work environments. To gain a competitive advantage over other apartments and hotels, Amenity Suites will offer a full sized, state of the art co-working center.

Our coworking center will be designed to compete with other coworking offices, by providing competitive pricing and extra amenities. Our coworking facility will come with unique amenities like access to the self-serve cafe and a free membership to the fitness center. We will also price our memberships to be highly competitive, given the average membership rates of typical coworking offices.

SECTION 4 ECONOMIC RATES

ECONOMIC RATES: Cap Rate Analysis

Below is a chart that shows the range of cap rates (shown in green) for multifamily housing over the last 20 years. The data comes from the "Freddie Mac 2022 Multifamily Midyear Outlook". Freddie Mac, also known as the Federal Home Loan Mortgage Corporation, is a government sponsored organization that buys mortgages, pools them, and sells them as mortgage-backed securities (MBS) to private investors. The purpose of this Cap Rate Analysis is to determine a present and long-term Cap Rate for this project.

Source: mf.freddiemac.com/docs/2022-multifamily-midyear-outlook.pdf

According to the report, recent cap rates have "averaged 4.6%". Cap rates typically have a 1% range of variation across different markets. Given the placement of this project in a secondary market, the Freddie Mac rate was discounted by 1% (to 5.6%), before being applied as the cap rate in this report. To keep the estimates in this report conservative, in the 25-Year Cash Flow Analysis, the cap rate starts at 5.6% but rises to 8.25% over the next 20 years. That reflects the range of cap rates seen over the last 20 years.

National Multifamily Cap Rate	4.60%
Market Discount Rate	1.00%
Estimated Starting Cap Rate	5.60%
Long-term (10-year) Cap Rate	8.25%

ECONOMIC RATES: Inflation Rate Analysis

The table below is a detailed analysis of the monthly and annual rates of inflation over the last 20 years. The purpose of this Inflation Rate Analysis is to determine an average historical rate of inflation. Once established, this rate is used to estimate the rate at which the operating expenses will likely increase. To calculate that rate, the annual inflation rates (based on the monthly rates) were calculated, then the 20-year average (based on the annual rates) was calculated.

CONSTRUCTION: Financing Terms

The target terms for the bank financing will be dividing into two phases of financing. The first phase will be the construction loan, which will take the project through the 12-month construction and the first 6 months of lease-up. The project will then transition into long-term permanent financing. During construction, when there is no income, the project will seek to have no payments with the interest compounded. During lease up, when income is limited, the project will seek terms that provide for interest only payments. The table below calculates the compounded interest and increased loan balance during construction.

CONSTRUCTION: Financing Terms

Below are the anticipated terms of the bank financing for the project. The terms are based on a construction loan at a rate of Prime + 0.5%. Upon the completion of construction, the loan will transition to permanent financing. Both loans will be with the same bank, and the terms for both loans will be finalized with the bank before construction begins.

The length of the construction loan will be 18 months and based on a 25-year amortization. The permanent financing will be for 23.5 years and based on a 23.5-year amortization. Those terms will allow the bank debt to be paid off in 25 years. The interest rate will be based on Prime + 0.50%.

The bank will be allowed to reevaluate the interest rate every 3 years, and the loan will include a Second Advance Feature. That feature will allow the project to secure additional future cash if needed. The Second Advance Feature will become available once the project exceeds a 1.20 debt service coverage ratio for the trailing 12 months. The loan will also include provisions that eliminate any prepayment penalty after the first 2 years.

AMENITIES - FITNESS CENTER

Below are the calculations for income based on the fitness center memberships. The number of tenant memberships is based on the average number of apartment tenants who are typically "interested in renting in a community with a gym or fitness center". The number of public memberships is based on the fitness facility ramping up, over 4 years, to half the average membership of an Anytime Fitness. Anytime Fitness is the "#1 fitness franchise in the world." The Amenity Suites fitness facilities are designed to be larger and higher quality than the typical Anytime Fitness.

AMENITIES - COWORKING

Below are the calculations for income, based on estimated coworking memberships. The monthly membership rate has been chosen to be highly competitive with comparable coworking facilities in the same market. The number of expected memberships is based on ramping up, over 4 years, to the estimated membership level that was calculated in Section 3.

AMENITIES - SERVICE AMENITIES

Amenity Suites will offer a number of service amenities that appeal to our target demographic (see Target Demographics section). The service amenities are primarily designed to help attract tenants, by providing a higher level of amenities than other apartments. However, they will also add an additional layer of income to the project.

Income is not the primary purpose of the service amenities, because they cannot generate a significant level of income compared to amenities like the fitness facility and the coworking center. The income from the service amenities will be generated by on demand services that are paid for by apartment tenants. The two main services that will be provided will include pet walking and apartment cleaning.

Below is a breakdown of the expected demand for service amenities and the income generated. The demand for the services and their pricing are set at very conservate estimates. Those estimates are based on the demand that was experienced at the "proof of concept" property.

LEASE-UP & STABILIZATION: Occupancy Ramp-Up Schedule

The table below outlines the projected occupancy rates during construction (year 1) and rampup (year 2). The occupancy ramps up to the "Present Average Annual Occupancy Rate" (94%), which was calculated in the Occupancy Rate Analysis section. However, in the 25-Year Cash Flow Analysis, starting with year 3 the occupancy changes are adjusted over the next 20 years to trend toward the 20-Year Average Annual Occupancy Rate.

FINANCIAL PROJECTIONS: Valuation at Stabilization

Below is the calculated valuation of the project based on income at stabilization. This valuation is an important metric, because the Amenity Suites development prototype has been value engineered to decrease construction costs and increase income. The increased in valuation, from construction to stabilized income, is provided at the bottom of the page.
